Rehabilitation Equipment Price List

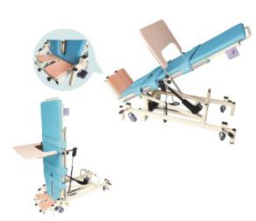

Walking Rehabilitation Series					
YB-XFT-1		Walking training stairs	Used for walking and standing training	Height:134-160cm Size: 337*82*134-160cm Load capacity: 135kg Material: composite board, aluminum	350
YB-XFT-2		Walking training stairs	Used for walking and standing training	Height:134-160cm Size: 337*140*134-160cm Load capacity: 135kg Material: composite board, aluminum	390
YB-BXB		Ramp and Curb Training set	Used for walking training	Size:320*86*35cm Load capacity: 135kg Material: composite board	230
YB-CTS		Training stairs	Used as simple training stairs or different height seats	Size: 60*33*40cm Load capacity: 135kg Material: composite board	110
YB-PHG-1		Parallel bars	Used for walking and standing training	Height:77*103 cm Width: 38-61cm Length: 300cm Load capacity: 135kg Material: composite board,aluminum	290
YB-PHG-3		Electric parallel bar	Used for walking and standing training	220V±10% 50HZ Maximum power: 3000N Max.loading: 200Kg size: 3500*900*850-1300mm Range of handrail: 380-630mm Electrical height range: 850-1300mm Equipped with walking training kit, Correction kit of internal and external valgus; inclination of correction board: 15° Each side can lift seperately	3200
YB-JZB-1 (steel type)		Electric unweight gait training system	Used for walking and standing standing training	Height: 196-236cm Size: 120*103*196-236cm Adjustable height range of armrest: 75-158cm Adjustable front to back range of armrest: 16-30cm Width of armrest: 59cm Load capacity: 135kg	1100
YB-JZB-11 (middle frame is aluminium , with battery)		Electric unweight gait training system	Used for walking and standing standing training	Height: 196-236cm Size: 120*103*196-236cm Adjustable height range of armrest: 75-158cm Adjustable front to back range of armrest: 16-30cm Width of armrest: 59cm Load capacity: 135kg	1500
YB-JZB-5		Electric unweight walking standing training frame	Used for walking and standing standing training	Height: 240cm Length: 160cm Width: 115cm Material: aluminium alloy Load capacity: 135kg Height is electric adjustable Voltage: 220V, 50Hz	2800
KD-JZB-2 (steel type)		Electric unweight system with medical slow treadmill	Used for walking and standing standing training	Material: steel Height: 196-236cm Size: 120*103*196-236cm Adjustable height range of armrest: 75-158cm Adjustable front to back range of armrest: 16-30cm Width of armrest: 59cm Load capacity: 180kg Speed of treadmill: 0.1-12km/hr Gradient of treadmill:0%-15%	2500

YB-JZB-3 (middle frame is aluminium , with battery and treadmill)		Electric unweight gait training system with medical slow treadmill	Used for walking and standing standing training	Material: aluminium Height: 196-236cm Size: 120*103*196-236cm Adjustable height range of armrest: 75-158cm Adjustable front to back range of armrest: 16-30cm Width of armrest: 59cm Load capacity: 135kg Speed of treadmill: 0-11MPH Gradient of treadmill:0%-15%	3000
YB-JZB-4 (whole frame is aluminium, with battery, treadmill and exercise bike)		Electric Double unweight systen with treadmill and exercise bike	Used for walking and standing standing training	Size: 200*151*241cm Max rising speed of inboard and outboard frame:11mm/s Load capacity of inboard frame:5-135kg Load capacity of outboard frame:5-80kg Training time: 1-99min Load capacity: 135kg Speed of treadmill: 0-11MPH Gradient of treadmill:0%-15% Exercise bike: exercise time,distance,speed,calorie,pulse are showed on LCD display. Resistance and seat height of exercise bike are adjustable	4500
JY-YWT01		Ceiling rail suspension moving system	Used for walking and standing training	Load capacity: 180kg Material: aluminium With electric host to adjust height Rail: 5m With (any other customized size is acceptable)	9800
TM-PH-V		Balance evaluation and training system	Used for balance rehab training	1. The movable platform can swing up and down around the center of the ball, the swing range is -10°~+10° The hydraulic damper provides 6 levels of resistance adjustment; 2. The casters enable to move easily 3. Equipped with the wearable safety harness 4. Bluetooth wireless communication 5. Balance board maximum load: 150kg. 6. Interactive training: Sports racing car, Drilling blocks, Memory master, Fish eat Fish and total nine games, so that patients can get rehabilitation training in entertainment and learning. 7. Training evaluation report: generates the holistic evaluation report based on the users' training data, reflecting the patient's treatment status. * Optional : TV, computer, printer and frame	8000
YB-FBQ-3		Medical Walking frame	Used as walking aid	Size: 98×80×100 ~ 145cm Height: 100-145cm Load capacity of table: 80kg Adjustable range of handrail: 0-55cm	160
YB-FBQ-1		Medical Walking frame with seat and brake	Used as walking aid	Size: 98×80×100 ~ 139cm Seat height: 53-72cm Load capacity of table: 80kg Load capacity of seat: 135kg Adjustable range of handrail: 0-55cm	320
KD-ZHQ-04		Walking frame	Used as walking aid	Size: 70*57*78-96cm Height: 78-96cm Load capacity: 135kg Material: aluminum	30
YB-FBQ-2		Folding walking frame	Used as walking aid	Size: 60*68*100-127cm Height: 100-127cm Load capacity of table: 80kg Material: steel	220
YB-4300		Rollator	Used as walking aid or shopping aid	With seat,double hand brake,double foot brake,shopping basket Material:steel Height of seat: 50cm Overall height: 78-92cm Load capacity: 90kg	80

HDP-01		Medical electric low speed treadmill	Used for walking training	LCD display shows speed, calorie, heart rate, running distance, sport mode, electric lifting adjustable, EMG-STOP Power: 1800W(2.5HP) Voltage: 220/110V(50HZ) Running area: 1260*420mm Medical speed: 0.1-6km/h Normal speed: 0.3-14km/h Load capacity: 120kg N.W: 75kg	800
HDP-4		Medical electric low speed treadmill	Used for walking training	LCD display shows speed, calorie, heart rate, running distance, sport mode, electric lifting adjustable, EMG-STOP Power: 3HP Load capacity: 130kg Running surface: 1260*430mm Speed: 0.1—6.0km/h	980
CPM Series					
YB-YTK-F (top quality)		Knee traction CPM (with light weight, big LCD color screen, with big hand controller)	Used for leg rehabilitation training	1.LCD touch color display 2.Motion angle,speed and time can be controlled by microcomputer 3.Return automatically for over-load protection 4.Speed:9 level(0.5°/s-3.5°/s) 5.Angle motion range of knee joint:0°-120° 6.Angle motion range of hip joint:25°-100° 7.The longest running time:240min 8. N.W: 17KG	1400
Y-YTK-E		Knee traction CPM	Used for leg rehabilitation training	1.LCD color display 2.Motion angle,speed and time can be controlled by microcomputer 3.Return automatically for over-load protection 4.Speed:9 level(0.5°/s-3.5°/s) 5.Angle motion range of knee joint:0°-120° 6.Angle motion range of ankle joint:0°-40° 7. Angle motion range of hip joint:25°-100° 8.The longest running time:240min 9.N.W: 20kg	950
YB-JKJ-2		Shoulder and elbow joint CPM	Used for shoulder and elbow traction whose shoulder or elbow is injured or has shoulder or elbow hemiplegia	1.LCD color display 2.Motion angle,speed and time can be controlled by digital equipment 3.The length of stand can be adjusted not more than 50mm 4.Angle motion range of joint：0°—150° 5. Speed:9 level(0.5°/s-3.5°/s)	1200
YB-JKJ-1		Shoulder joint CPM	Used for shoulder traction whose shoulder is injured or has shoulder hemiplegia	1.LCD color display 2.Motion angle,speed and time can be controlled by digital equipment 3.The length of stand can be adjusted not more than 50mm 4.Angle motion range of joint：0°—150° 5. Speed:9 level(0.5°/s-3.5°)	1200
YB-JKF-1		Ankle Joint CPM	Used for ankle traction whose ankle is injured or has anklehemiplegia	1.LCD color display 2.Motion angle,speed and time can be controlled by digital equipment 3.The length of stand can be adjusted not more than 50mm 4.Angle motion range of joint：0°—150° 5. Speed:9 level(0.5°/s-3.5°)	900
YB-JK-H3		Elbow Joint CPM (desk)	Used for elbow traction whose elbow is injured or has elbowhemiplegia	1.LCD color display 2.Motion angle,speed and time can be controlled by digital equipment 3.The length of stand can be adjusted not more than 50mm 4.Angle motion range of joint：0°—150° 5. Speed:9 level(0.5°/s-3.5°)	900
YB-JK-H2		Elbow joint CPM (vertical)	Used for elbow traction whose elbow is injured or has elbowhemiplegia	1.LCD color display 2.Motion angle,speed and time can be controlled by digital equipment 3.The length of stand can be adjusted not more than 50mm 4.Angle motion range of joint：0°—150° 5. Speed:9 level(0.5°/s-3.5°)	1000

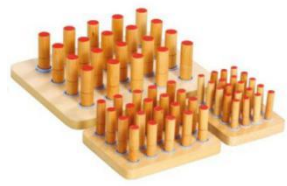

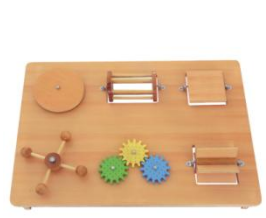

YB-JKS-1		Finger Joint CPM	Used for finger traction whose finger is injured or has shoulder hemiplegia	1.LCD color display 2.Motion angle,speed and time can be controlled by digital equipment 3.The length of stand can be adjusted not more than 50mm 4.Angle motion range of joint：0°—150° 5. Speed:9 level(0.5°/s-3.5°)	900
YB-YTK-1		Wrist Joint CPM	Used for wrist traction whose wrist is injured or has shoulder hemiplegia	1.LCD display 2.Motion angle,speed and time can be controlled by digital equipment 3.The length of stand can be adjusted not more than 50mm 4.Angle motion range of joint：0°—150° 5. Speed:9 level(0.5°/s-3.5°)	900
Upper Limb Rehabilitation Series					
YB-WXZ		Wrist joint rotation training device	Used to improve wrist's moving ability in all directions	Size: 62*22*26cm Adjustable range of handle: 0-11cm Adjustable range of hand cushion: 0-7cm Maximum resistance: 980N	150
YB-JXQ-1		Shoulder Joint Rotation Training Device	Used to improve moving ability of shoulder and elbow joint	Size: 38*35*98cm Height of platform: 0-63cm Adjustable range between axis of rotation and handle: 19-58cm	165
YB-QXZ		Fore-shoulder rotation training device	Used to improve moving ability of forearm rotation	Size: 50*35*98cm Resistance is adjustable	150
YB-WQS		Wrist Training Device	Used to improve wrist joint's moving range and muscle strength training	Size: 53*19*98cm Height of platform: 0-63cm	150
YB-JXQ-2		Shoulder Wheel	Used to improve ability of shoulder and elbow joints	Size:77*35*98cm Height of platform: 0-63cm Adjustable range between axis of rotation and handle: 17-33cm	195
YB-QWQ		Fore-shoulder and Wrist Training Device	Used to improve forearm's rotation function,can be used for training wrist's moving range and muscle strength training	Size:68.5*20*26cm	250
YB-SZX-2		Shoulder Arc	Used to train upper limb's stability and coordination	Size:80*20*45cm	55
YB-SZX-1		Shoulder Arc	Used to train upper limb's stability and coordination	Size:110*25*51cm	50
YB-XJQ		Rubber fingers training device	Used to improve finger's positive and active bending and extending ability	Size: 60*40*50cm	60
YB-WGN		Wrist function exercising device	Used for wrist muscle and wrist joint motion training	Size: 43*23*10cm	30

YB-JLD		Muscle training band	Used for muscular strength training of whole body	Size:68*10cm	6
YB-ZGQ		Elbow joint training device	Suitable for patients to do elbow's lasting traction training and improve joint's motion ability	Size: 102*121*118cm Height of seat: 55-66cm Adjustable range of hand cushion: 0-18cm Angle of seat: 0-90° Weight: 1.8kg Load capacity: 135kg	450
TM-YZY		Upper limb and lower limb linked training device	Upper limb: active training Lower limb: passive training with the help of upper limb	Size:150*87*149cm 20 grades resistance LED display Load capacity: 150kg	1380
TM-KXQ		Chest-expanding training chair	Used for doing chest-expanding training	Size: 103*74*132cm 6 different resistance	550
TM-QWQ		Body stability training chair	Used for body stability training	Size: 94*74*132cm 6 different resistance	550
TM-GSQ		Quadriceps training chair	Used for quadriceps training	Size: 116*74*145cm 6 different resistance	550
TM-STQ		Upper limb training chair	Used for upper limb training	Size: 94*74*132cm 6 different resistance	550
TM-KGQ		Hip training chair	Used for hip training	Size: 137*74*132cm 6 different resistance	550
TM-SQQ		Arm flexion training chair	Used for arm flexion training	Size: 84*74*95cm 6 different resistance	550
TM-DTQ		Drive leg training chair	Used for leg rehabilitation training	Size: 161*74*155cm 6 different resistance	550
YB-JTI		Shoulder ladder	Used to improve shoulder's move range	Size: 55*10*122cm Material: composite board	65
YB-JTJ		Climbing Board and Bar	By putting bar on different height to train upper limb's lifting ability	50×48×73cm Tilt angle is adjustable	65

YB-STJ		Incline Board	By pushing the weight to train upper limb's muscle strength	68×51×54 ~ 68cm Up move distance:0-36cm Tilt angle:30°-45° Tilt angle is adjustable	295
YB-YSK		Upper limb coordination trainer	Used as assistant tool for upper limbs' flexibility and coordination	Size: 95*63*85cm	500
Treatment Table Series					
YB-ZLC-2		Electric Tilt table	Used for standing training	Size: 190*80*105cm Material: Leather,steel Adjustable angle:0-90°	800
YB-ZLC-4		Electric Tilt table with ankle joint exercise board	Used for standing training	Size: 190*80*105cm Material: Leather,steel Adjustable angle:0-90° Feature: with ankle joint correction board Load capacity: 225kg	850
DLQ-1A (top quality)		Electric Tilt table	Used for standing training	Size:190*80*60-80cm Bed height: 60-80cm electric adjustable Arm lifting: 56cm Back tilt angle: 0-80° Material: Leather,steel Whole bed tilt angle:0-90° Feature: with ankle joint correction board Load capacity: 225kg	1200
DLQ-3A		Electric Tilt table	Used for standing training	Size: 190*80*105cm Material: Leather,steel Adjustable angle:0-90° Feature: with ankle joint correction board Load capacity: 225kg	1000
YB-XLC		Training Bed	Used as treatment or massage bed	Size: 196*74*40cm	120
YB-AMC		Massage table with hole	Used as treatment or massage bed	Size: 190*60*60cm	120
YB-AMC-2		Massage table without hole	Used as treatment or massage bed	Size: 190*60*60cm	130
YB-PTC-1		PT Training Bed	Used as treatment or massage bed	Size: 190*126*48cm	130
YB-PTC-2		Wide width electric treatment bed	Used as treatment or massage bed	Size: 200*122*50-80cm Material: Steel, foam sponge with leather Height of bed: 50-80cm Angle of front part: -0°-80° Size of front part: 77*120cm Size of back part: 118*120cm Load capacity: 225kg	800

YB-PTC-3		Wide width electric treatment bed (2 sections)	Used as treatment or massage bed	Size: 200*122*50-80cm Material: Steel, foam sponge with leather Height of bed: 50-80cm Angle of front part: 0°-80° Size of front part: 77*120cm Size of back part: 118*120cm Load capacity: 225kg	900
YB-TWC-1		Examination and Treatment Bed (3 sections)	Used as treatment or massage bed	Size: 205*65*50-90cm Material: Steel, foam sponge with leather Height of bed: 50-90cm Angle of front part: -30°-25° Size of front part: 59*59cm Angle of middle part: 0°-25° Size of middle part: 50*59cm Angle of back part: 0°-75° Size of back part: 92*59cm Load capacity of bed: 225kg	800
YB-TWC-2		Examination and Treatment Bed (6 sections)	Used as treatment or massage bed	Size: 200*65*50-90cm Material: Steel, foam sponge with leather Height of bed: 50-94cm Height of armrest: 0-9cm Angle of front part: -20°-40° Size of front part: 52*32cm Angle of middle part: 0°-25° Size of middle part: 51*60cm Angle of back part: 0°-75° Size of back part: 90*29.5cm Load capacity of bed: 225kg	950
TM-BBA		Simple manual nursing bed	Nursing bed	Size: 198*90*50cm Back angle: 0-80°	200
TM-BBC		Multi function manual nursing bed	Nursing bed	Size: 200*90*50cm Back angle: 0-75° Leg angle: 0-55°	400
Lumbar And Neck Traction Series					
DFK-IIA1		Cervical and lumbar traction bed	Used for lumbar and cervical tractionn	Size: 250*60*70cm Power: 120VA Traction journey: Lumbar: 0-260mm Cervical vertebra: 0-320mm Traction speed: 0-15mm/s Traction force: Cervical: 0-200N Lumbar: 0-999N Traction total time: 0-60min Continuous traction time: 0-9min Intermission traction time: 0-5min	1300
DFK-IIIA1		Cervical and lumbar traction bed (3D traction)	Used for lumbar and cervical traction	Size: 258*60*70cm Power: 400VA Up/down angular angle: 0-20° Lift/right sway angle: 0-25° Traction journey: Lumbar≤260mm Cervical vertebra≤320mm Traction speed: ≤15mm/s Traction force: Cervical: 0-200N Lumbar: 0-999N Traction total time: 0-60min Continuous traction time: 0-9min Intermission traction time: 0-5min	1800

DFD-3000B1		Neck and lumbar traction bed (computer controlled, with heating function on the bed)	Used for lumbar and cervical traction	Size: 220*55*86cm Power: 500VA Angular Degree: ≤20° Swing angle: ≤25° Heating temperature: ≤80℃ Traction journey: Lumbar≤200mm Cervical≤300mm Traction speed: ≤15mm/s Traction force: Lumbar:100N-1200N Cervical:0-200N Traction total time: 0-60min Continuous traction time: 0-9min Intermission traction time: 0-5min	3300
DFZ-3		Electric Cervical traction chair (motor type)	Used for cervical traction	Traction distance：≤320 ㎜	540
DFZ-4		Electric cervical traction chair (microcomputer type)	Used for cervical traction	Controlled by microcomputer Traction distance：≤320mm Traction force: 0-400N (adjustable) Total traction time: 0-99min (adjustable) Continuous traction time 0 ~ 9min(adjustable) Intermittent traction time 0 ~ 9min(adjustable)	1165
DFY-V (level lying)		Chinese Traditional Medicine Fumigating Curer	It can reach the effects of opening capillary vessel, improving micro cycle, relaxing the bones, abirritation and loosening arthrosis. It has extensive therapy domain with little side effects.	Cabin Temp: 35℃-65℃ Curing time：1-99mins Max bearing: 135kg Power: 2500VA	2390
Finger Rehabilitation Series					
YB-SGN		Finger training device	Used to improve fingers' working ability	Size:50*40*21cm Small wooden hammer: 3 pieces Big wooden hammer: 1 piece Gear type wood chip: 1 piece Resistance bands: 1 piece	60
YB-ZCZ		Finger strength training device	Used for fingers' strength training and improving finger joint's moving range	Size: 81*61*78cm Weights: 100g,200g,300g,500g,every type weights have 3 pieces Load capacity of table surface: 60kg	130
YB-SZX-3		Upper limb coordinate ability training device	Used to train upper limb's stability and coordination	Size:31*25*28cm	40
YB-OTZ-1		Integrative OT exercising table	Used to improve finger's function,raise eyes and hands coordinative function,also used to train upper limb's stability and coordination	Size: 190*103*94cm Including 12 kinds of products	700
YB-TBE		Series cups	Used to train finger's function	Size: 30*15*13cm Total: 6 cups	15
YB-MNG		Simulation OT tools	Used to improve finger's function by using various simulative tools and raise hands' coordination	Total: 16 tools	45

YB-SLM		Finger coordinate ability training device	Used to improve finger's function and coordination	Material:wood M6X40 hexagon bolt:7pics M8X40 hexagon bolt:16pics M6 nut:7pics M8 nut:32pics	35
YB-SLS		Bolt board	Used to improve finger's function and coordination	Material:wood M6X40 hexagon bolt:8pics M8X40 hexagon bolt:16pics M6 nut:16pics M8 nut:32pics	25
YB-TQB-2		Upright ringer	Used to improve hand-and-eye coordination function	φ28*44cm φ3.8cm(pole)	45
YB-TAZ		Ringtoss plate	Used to improve hand-and-eye coordination function	Total 15 pieces plate	24
YB-TQB-1		Ringtoss plate	Used to improve hand-and-eye coordination function	50×42×16cm φ2.5cm(pole)	40
YB-TCP		Setting color board	Used to train the sufferer's hand-and-eye coordination function	79×17×73 cm φ2.8cm(pole) Distance between pole:21cm Round wood:4pics triangle wood:4pics square wood:4pics	32
YB-MVB-3		Wooden peg inserting board set	Used to improve finger's function and coordination	36*29*10cm,φ2.5*10cm,20pics 22*18*9.5cm,φ1.8*9cm,20pics 18*14*8.5cm,φ1.3*8cm,20pics	35
YB-YCB-1		Steel peg inserting board	Used to improve finger's function and coordination	20×12×3.5cm	18
YB-MCB-2		Adjustable slope wooden peg inserting board	Used to improve finger's function and coordination	30×29×21-30cm φ2.5*10cm,10pics φ1.8*9cm,14pics φ1.3*8cm,18pics Range of angle: 15°,26°,32°,36°,40°	30
YB-HCB		Semi-circle peg inserting board	Used to improve finger's function and coordination	4*45*18cm φ2.5*8cm,14pics φ2*8cm,14pics φ1.5*8cm,15pics	50
YB-SZ		Upper limb integrated exercise device	Used to improve upper limb and finger's function and coordination	Size: 70*48*10cm	95
YB-SGX		Upper limb integrated exercise device	Used to improve upper limb and finger's function and coordination	Size: 66*47*17cm	95
YB-SHY		Upper limb integrated exercise device	Used to improve upper limb and finger's function and coordination	Size: 66*47*17cm	230

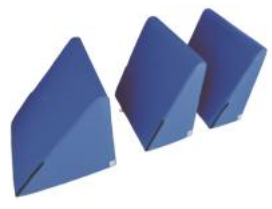

YB-SJT		Finger ladder	Used to improve finger’s moving range	Size: 9×12×45cm Distance between ladder:2.2cm Steps:10	35
YB-SMB		Adjustable sanding board	Used for training upper limbs’ muscle strength as well as joint’s moving ability	104×84×83cm Range of tilt angle:0°-50° 4 pics accessories	122
YB-TCB-2		Hand function inserting training box	Used to train patient’s acceptation ability as well as cerebral recognition ability for the geometric figures	50*40*3cm	20
YB-TCB-1		Hand function inserting training box	Used to train patient’s acceptation ability as well as cerebral recognition ability for the geometric figures	Size:45*35*3cm	20
YB-FZB-1		Fingers Correcting Board	Used to prevent and correct fingers’ flexor spasm and deformation	Size:19*19*2.3cm M:20*20*2.7cm L:22*22*3cm Distance between fingers: S:16mm M:22.5mm L:26mm	3
YB-FZB-2		Finger correcting board with castors	Used to prevent and correct fingers’ flexor spasm and deformation	S:19*19*2.3cm M:20*20*2.7cm L:22*22*3cm Distance between fingers: S:16mm M:22.5mm L:26mm	9
YB-FZB-6		Finger correcting board	Used to prevent and correct fingers’ flexor spasm and deformation	22×20×6cm	10
YB-FZB-3		Plastic Finger correcting board with castors	Used to prevent and correct fingers’ flexor spasm and deformation	S:19*19*2.3cm M:20*20*2.7cm L:22*22*3cm Distance between fingers: S:16mm M:22.5mm L:26mm	4
YB-PHB-1		Balance Exercising Board	Used to train the balance ability of body	Size: 90*70*10cm Material: wood	21
YB-PHB-02		Balance Exercising Board with armrest	Used to train the balance ability of body	Size: 90*70*10cm Material: wood	40
YB-ZYQ		OT Exercising Device	Used to improve finger’s interactive ability and improve coordination ability between hand and eye	Frame size: 50*15*52cm Small board: 30*30*11cm Big board: 60*40*11cm	120
YB-ZGN		Hand function training box	Used to improve finger’s interactive ability and improve coordination ability between hand and eye	Size: 55*40*14cm Including small wooden stick,steel stick,screw,hoodle and some other simulation tools	83
Lower Limb Rehabilitation Series					

YB-ZLJ-1		Standing frame (one person)	Used for standing training	Height: 102-122cm Size: 76*84*102-122cm Material: composite board, steel, leather Load capacity: 135kg	130
JY-XZ-ZLJ-4		Electric standing frame	Used for standing training	Height: 104-134cm Size: 76*84*104-134cm Material: composite board, steel, leather Load capacity: 135kg	600
YB--ZLJ-2		Standing frame (two person)	Used for standing training	Size:144*60*110cm Material: composite board, steel, leather Load capacity: 135kg	220
YB-ZLJ-3		Standing frame (four person)	Used for standing training	Size:144*60*110 cm Material: composite board, steel, leather Load capacity: 135kg	250
TM-ZXQ-03		Manual exercise bike	Used for exercise training of hand and leg	6 grades height adjustable	90
TM-ZXQ-07		Manual folding mini exercise bike	Used for exercise training of hand and leg	Size: 51*41*43cm Resistance is adjustable Material: ABS-PVC With LED display	35
TM-ZXQ-04		Manual mini exercise bike	Used for exercise training of hand and leg	Size: 51*41*43cm Material: steel With LED display	50
TM-ZXQ-08		Simple electric exercise bike	Used for exercise training of hand and leg	Size: 52*34*34cm Material: steel With LED display	250
TM-ZXQ-06		Simple electric exercise bike	Used for exercise training of hand and leg	Size: 52*34*87cm Material: steel With LED display	280
TM-ZXQ-05		Electric exercise bike	Used for exercise training of hand and leg	Synchronous training or separate training for hand and leg Height is adjustable 10 grades resistance With active training mode and passive training mode With positive turn mode and reverse turn mode With LED display	530

TM-ZBD-IC (top quality)		Bedside passive and active exerciser for upper limb	Used for exercise training of upper limb	AC220V 50Hz 185VA Speed: 5-55rpm adjustable continuously Time: 0-60min adjustable Anti spasm control; Spasm detective Spasm force: gear1~3 (adjustable); spasm time: 2s~28s (adjustable) Horizental rotary of upper 180°, height 0~150mm adjustable Connection device: 0-140cm lifting adjustable; support arm: 1-100mm Passive and active mode	3200
TM-ZBD-IIE (top quality)		Bedside passive and active exerciser for lower limb	Bedside passive and active exerciser for lower limb exercise training	AC220V 50Hz 185VA Speed: 0-55rpm adjustable continuously Time: 1-120min adjustable Anti spasm control; Spasm detective Spasm force: gear1~3 adjustable; spasm time: 2s~28s adjustable Horizental rotary of upper 180°, height 0~150mm adjustable Connection device: 0-70cm lifting adjustable; traction rope 860mm Passive and active mode	3200
TM-ZBD-IIID (top quality)		Passive and active exerciser for upper and lower limb	Passive and active exerciser for Upper and lower limb exercise training	1. Output power: 100W 2. Input voltage: AC220±10% 3. Fuse：3A 5X20mm 4. Training time: 0-60min adjustable 5. Anti-spasm control Spasm force: gear1~3 adjustable; spasm time: 2s~28s adjustable 6. Horizontal rotary of upper 180°, height 0~70mm adjustable Passive and active mode • Assisted Training	3500
TM-101B (advanced)		Intelligent hand rehab training system	Used for hand and finger rehab training	a) Twelve training modes: horizontal pulling training, finger extension/flexion training, grasp training, finger extension training, finger symmetry training, finger holding training, forearm rotation training, finger pinching training, thumb strength training, wrist ulnar/radial deviation training, wrist extension/flexion training, finger lifting training b) Four independent screens enable four patients take training simultaneously c) Resistance adjustable: 500g-2500g d) Iteractive games e) Customized training plan is available f) Evaluation report is automatic formed and printed. g) Size: 1500*1500*1140-1540mm; table height: 670-1070mm	13500
TM-KSZFK-1		Intelligent Upper Limb Feedback rehabilitation training system	For upper limb exercise training	Power: AC220V 50/60Hz 8 non-contacted angle sensors and 1 grip sensor Sensitivity of sensor: 1.1mv/N Grip rangement: 0~10Kg Length of upper arm: 20~30cm Length of forearm: 24~40cm Height of arm: 98~138cm Horizontal of arm: 0~55cm Gravity compensation of upperarm: 0~6Kg Gravity compensation of forearm: 0~4Kg Locking device: 4 Right or left hand Software: patient evaluation system, data base, automatic training record, 1-3 dimensional training mode, evaluation report, report printing and saving.	13000

TM-KXZFK-9		Intelligent Lower Limb Feedback rehabilitation training system	For lower limb exercise training	Power voltage: AC220V; 50/60Hz; Power: 400VA Height range: 0~300mm Treatment time: 0~99min adjustable. Rising angle: 0~90° adjustable by clicking; Angle of anteversion of upper body: 0~15° adjustable Hypsokinesis angle: 0~10° adjustable Step angle: 0~25° Step speed: 1~80 steps/min adjustable. The pedal could electrically extension&flexion within 0~200mm; electrically weight loss extension&flexion 0~150mm Upward & downward angle of pedal: ±15° Loading capacity: 180Kg Spasm detecting LCD screen, microcomputer control Active and passive mode Simulated human body movement curve on the screen	13000
TM-KFQ		Lowe limb training device	Used to improve lower limb's moving range and coordination function	Size: 152*58*130cm Adjustable range of seat from front to back: 0-23cm Load capacity of back cushion: 70kg Load capacity of seat: 135kg	362
TM-GLC-2		Lower limb function bike	Used to improve lower limb's moving range and coordination function	Size: 137*57*98cm 8 grades resistance Load capacity of back cushion: 70kg Load capacity: 135kg	250
YB-GLC-4		Lower limb function bike	Used to improve lower limb's moving range and coordination function	Size: 137*60*125cm Seat height: 73-98cm LCD display shows DIST, SPEED, TIME, CAL, PULSE 8 different resistance	360
YB-SXZ-4 (top quality)		Linked exercise bike	Used to improve upper and lower limb's moving range and coordination function	Size: 150*87*149cm 20 different resistance Seat height: 73-98cm LCD display shows DIST, SPEED, TIME, CAL, PULSE Load capacity: 150kg N.W: 71KG	1450
YB-HCQ		Rowing machine	Used to improve the muscle strength of whole body	Size:140*60*80cm 12 different resistance Distance between seat and pedal:70-105cm Load capacity: 135kg	130
YB-GST		Quadriceps training chair	Used to improve the strength of knee joint or to do knee traction exercise	Size: 119*115*117cm Height of seat: 65cm Width of handrail: 81cm Angle of seat: 0-90° Load capacity:135kg Total 8 weights,4 weights on every side,every weight is 1.8kg	245
YB-LTB-1		Mini stepper exerciser	Used to improve lower limb's tread ability and coordination	Size: 39*30*18cm	20
YB-HGJ		Ankle Joint Training Device	Used for ankle bending and extending dysfunction	Size: 107*65*80cm Height of seat: 45cm Width of seat: 50cm Adjustable range of seat from front to back: 0-10cm Load capacity of back cushion: 75kg Load capacity: 135kg	245

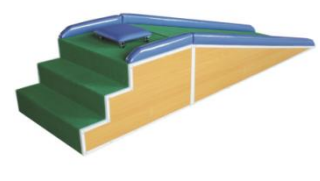

YB-KXZ		Hip Joint Rotation Training Device	Used to improve hip joint’s rotation function	Size: 122*50*90cm Height of handrail: 90-135cm	140
YB-HQS		Ankle joint training device	Used for training ankle joint’s bending and extending ability	Size: 40*25*90cm Adjustable angle of pedal:-25°+25°	55
YB-HJB		Ankle joint Correcting board	Used to prevent and correct foot 14 rolapsed,foot inversion as well as other foot deformation	Size: 37*31*10-21cm Angle of pedal: 15°，25°，30°，35° Load capacity: 135kg	19
YB-GSB		Quadriceps Femoris Training Board	Used to do knee joint exercise	Size: 80*20*22-31cm 6 different angles	42
YB-HLQ		Ankle joint Training Device	Used to prevent and correct foot 14 rolapsed,foot inversion as well as other foot deformation	Size of back cushion: 83*49*189cm Angle between back cushion and wall:0-25° Adjustable height of handrail: 0-50cm Size of ankle joint correction board: 37*31*10-21cm Angle of ankle joint correction board: 15°，25°，30°，35° Load capacity: 135kg	170
YB-HJZ		Ankle joint Correcting Board	Used to prevent and correct foot 14 rolapsed,foot inversion as well as other foot deformation	Size: 72*47*96-146cm Adjustable range of handrail: 0-50cm Angle of pedal: 8°，20°，30°，40°	70
YB-YTQ		Lower limbs pressure Treadle	Mainly used for lower limb’s moving ability and coordination ability as well as improve the muscle strength	Size: 82*77*130cm Width of handrail: 50cm Height of handrail: 95cm 12 different resistance Load capacity: 135kg	140
YB-TBQ		Lower limbs pressure Treadle	Used to improve lower limb’s moving range and waist mobility	Size: 93*44*118-133cm 4 different height of handrail Width of handrail: 43cm Total 4 dumbbells 2LB,2 pieces 3BL,2 pieces Rotation angle of turn plate: 360°	110
Whole Body Rehabilitation Series					
YB-QLQ		Pulley weights	Used to improve the muscle strength	Size:63*20*175cm Total 12 weights,6 weights on each side,each weight is 2kg Max pulley distance: 115cm	197
YB-XBJ-1		Chest and back correcting training device	Used to prevent and cyrtosis and kyphosis	Size: 128*72*210cm Load capacity of chest cushion: 70kg	98
YB-XBJ-2		Chest and back correcting training device	Used to prevent and cyrtosis and kyphosis and together with pulleys to train upper limb and chest muscle	Size: 128*72*210cm Total 12 weights,6 weights on each side Max pulley distance: 115cm Load capacity of chest cushion: 70kg	296

YB-SHD-2		Wrist and ankle weights	Used for muscle strength training	Size: 67×33×78cm Total 12 sand bags 0.5kg, 2 pieces 0.75kg, 2 pieces 1kg, 2 pieces 1.5kg, 2 pieces 2kg, 2 pieces 2.5kg, 2 pieces	75
YB-SHD-1		Binding sand bag	Used for muscle strength training	Size: 67×33×78cm Total 7 sand bags 0.5kg, 2 pieces 1kg, 2 pieces 2kg, 1 pieces 3kg, 1 pieces 6kg, 1 pieces	75
YB-YLI		Dumbbell sets	Used for muscle strength training	Size: 67×33×78cm Total 18 dumbbells 2.3kg, 4 pieces 1.8kg, 4 pieces 1.4kg, 4 pieces 0.9kg, 4 pieces 0.5kg, 2 pieces	68
YB-HLD-1		Pulley training device	Used for training shoulder joint's moving ability	Size: 70*16*150cm Adjustable range of lifting support: 0-50cm Load capacity: 15kg	30
YB-HLD-2		Simple door pulley device	Used for training shoulder joint's moving ability	Size: 39*6*20cm Load capacity: 10kg	10
YB-LMU-1		Wall bar	Used to improve the coordination ability of whole body, as well as doing sitting training, standing training, balance training and extending training of body	Size: 97*62*227cm Material: steel	160
YB-LMU-2		Wall bar	Used to improve the coordination ability of whole body, as well as doing sitting training, standing training, balance training and extending training of body	Size: 97*62*220cm Material: steel	180
YB-LMU-3		Wood wall bar	Used to improve the coordination ability of whole body, as well as doing sitting training, standing training, balance training and extending training of body	Size: 95*260cm Material: wood	195
YB-JZJ-2		Glass Mirror with grid	Used for correcting gesture	Material:aluminum frame,mirror Size:85*67*189cm	75
YB-JZJ-1		Glass Mirror	Used for correcting gesture	Material:aluminum frame,mirror Size:85*67*189cm	55
YB-ZRD-1		Exercising mat	Used to do exercise on it	Material: foam,leather Size: 200*65*5cm	45
YB-QXD		Wedging pad	Used to do all kinds of training exercise	Material: foam,leather Angle: 15°，25°，30°，45°	25

TM-XD		Suspension system	Used for doing rehabilitation training	Accessories: Three-dimensional multi-function training network frame Electric treatment table: 1 unit Pulley: 1 unit Waist belt: 1 piece Narrow shoulder belt: 2 pieces Middle subband belt:1 piece Narrow hand belt: 2 pieces Handlebar: 2 pieces Sliding handlebar: 2 pieces Elastic rope: 6 pieces Braided rope: 4 pieces	5200
YB-SZH		Multi-function Training Device	Used to improve the coordination of upper limb and improve the muscle strength of upper limb and lower limb	Including the below trainers, Shoulder wheel Forearm rotation exerciser: forearm training Wrist joints flexion and extension exerciser Pulley weight	690
YB-QZH		Multi-function Training Device	Used to improve the activity ability of whole body	Including the below trainers, Shoulder ladder Ankle joint exerciser Pulley rings exerciser Chest and back corrective exerciser Pulley weight Wall bar	1050
YB-BZH		Multi-function Training Device	Used to improve the activity ability of whole body	Including the below trainers, Forearm rotation exerciser Wrist joints flexion and extension exerciser Shoulder wheel Pulley weight	1200
YB-QYJ-1		Traction net	Used for doing rehabilitation exercise	Size: 200*120*174cm	150
YB-QYJ-2		Traction net with bed	Used for doing rehabilitation exercise	Size: 220*116*210cm Load capacity of frame: 80kg Load capacity of bed: 135kg Height of bed: 112cm Width of bed: 50cm	595
Measurement tools					
TM-WLJ		Hand dynamometer	Used to measure the strength of hand	Unit: kg/lb Max capacity: 90kg/198lb Division=0.1kg/0.2lb Power: 2x1.5V AAA batteries	20
TM-NLJ		Pinch strength dynamometer	Used to measure the pinch strength	Max capacity: 0-99lb Division=0.1kg/0.2lb	65
TM-JDC		Goniometer	Used to measure elbow and finger’s moving range and bending degree of spinal column	Size: 35*17*5cm Total 5 pieces	30
TM-KZC		Percussion hammer	Nerve detecting set	3 pieces Length:18cm	20
TM-PZJ-06		Sebum thickness gauge	Used to test sebum thickness	Size: 29.8*12*5.5cm	75

TM-BLJ		Back-leg-chest dynamometer	Measure the back and waist muscle strength	Size: 44*36*23cm	130
TM-TZC		weighting-scale	measure the weight	Digital display	20
Assistance Device Series					
YB-PTD-01		PT stool	stool	Size: 60*43*42-53cm	37
YB-PTD-02		PT stool with backrest	stool	Size: 60*43*42-53cm	80
TM-LY		Manual wheelchair	wheelchair	Material: aluminium 6’’ front wheel 20’’ back wheel Load capacity: 150kg Seat size: 40*38.5cm	135
HY101-01A		Electric Patient lift	Used to move patient	Motor:24V/8000N Size: 120*62*123cm Noise Level: 65dB(A) Battery Capacity: 60-80 times Lifting Speed: 6.7mm/s Maximun Fork Distance: 800mm Lifting Distance: 850mm-1750mm Weight Capacity: 180kg	700
TM-Z		Commode chair	Commode chair	Material: stainless steel	35
YB-898		Shower chair	Shower chair	Material: plastic	20
YB-BCZ		Sickbed table	Used as dining table of patient	Size: 95*45*67-87cm Load capacity: 50kg	51
YB-TAD		Series stools	Used as sitting stools in different height	Total 4 stools Size: 55*38*61cm,50*35*51cm,45*32*41cm,40*29*31cm	60
YB-CJU-1		Simulative kitchen	Cooking utensils	Size: 190*80*187cm	3500
Children Rehabilitation Series					

YB-ZJY		Children gesture correction chair	Used by children between 2-6 years old to train sitting gesture and correcting gesture	Size: 72*60*80cm Lifting range of head cushion: 0-12cm Adjustable range of crotch cushion: 0-10cm	130
YB-ZLJ-1C		Children standing frame	Used for standing training	Size: 80*65*74-107cm	160
YB-ZLJ-2C		Children standing frame	Used for standing training	Size: 80*64*131cm	155
YB-ZLJ-3C		Children protecting standing frame	Used for standing and sitting training	Size: 96*67*90cm Seat height: 47cm Back rest height from ground: 100cm Foam material seat with leather surface Can be used as standing frame or safety chair With castors easy to move, with safety belt	175
YB-AQY		Children Safety chair	Used as a safety chair by disabled children between 2-6 years old	Size: 105*53*86cm	102
YB-KGJ		Children hip joint training device	Used for hip joint rehabilitation	Size: 82*78*72cm Seat height: 40cm Seat width: 40cm Leg length: 50cm	250
YB-GST-1		Children quadriceps joint training chair	Used for quadriceps joint rehabilitation	Size: 93*91*100cm Seat height: 40cm Leg support: 0-28cm adjustable Weight: 1.5kg, 3pcs/each side	245
YB-HGJ-01		Children ankle joint training chair	Used for ankle joint rehabilitation	Size: 90*54*68cm	255
YB-ZTQ		Children exercise bike with chair and armrest	Used for improving lower limb activity ability	Size: 63*41*58-75cm	120
YB-ZLJ-4C		Children tilt standing frame	Use for standing training by children under 10 years old	Size:99*68*75-110cm	230
YB-YLI		Children dumbbell	Children dumbbell	With frame, different weights	70
YB-SMB-2		Children toy chair	Children toy chair	Size: 76*62*65-90cm Tilt angle is adjustable	122

YB-AQY-2		Children wheelchair	Children wheelchair	Suitable for children from 0-6 years old	353
YB-JZD		Sitting mat	Used as sitting mat	Size: 33*33*6cm Material: rubber	9
YB-BSQ		Ball	Used as toy ball	Φ65cm	12
YB-BTC-1		Children Bunching pad	Used to train lower extremity's muscle strength and balancing ability	Size: ¢ 96*23cm	70
YB-BTC-2		Children Bunching pad with armrest	Used to train lower extremity's muscle strength and balancing ability	Size: ¢ 97*120cm	80
YB-GTQ		Children roller	Used for the patient who is cerebral splays and hemiplegia as well as motion maladjustments' patient to do balance coordination training	Size: ¢ 22*80cm, ¢ 10*80cm, ¢ 15*80cm	37
YB-HTI		Children slide stairs	Used for cognition and psychology training as well as balance training	Size:335*91*54cm Second ladder to platform distance:100*91*54cm Ramp:235*91*54cm Slide load capacity:80kg Skateboardload capacity:50kg	450
YB-XFT-1C		Children two-side training stairs	Used for walking and standing training	Height:108-130cm Size: 300*82*108-130cm Load capacity: 135kg Material: composite board, aluminum	330
YB-XFT-2C		Children two-side training stairs	Used for walking and standing training	Height:108-130cm Size: 337*82*108-130cm Load capacity: 135kg Material: composite board, aluminum	360
YB-PHG		Children parallel bars	Used for walking and standing training	Height: 57-87cm Width: 85-112cm Length: 335cm Load capacity: 135kg Material: composite board, aluminium	260
YB-LMU		Children wall bar	Used for standing, sitting training, muscle strength training as well as trunk's traction and extension training	Size:85*52*154cm Diameter:3.2cm Spacing:15cm Load capacity:80kg	140
YB-YIY-2		Ladder back chair	Used for standing training, balance training	Size: 60*40*100cm	80
YB-FZB-05		Children finger correction board with castors	Used for finger exercise	Small size	9

YB-ZGT		Children crawling barrel	Used to prevent or correct improper up-standing gestures	Size: ¢ 60*76cm	60
YB-YLI-2		Children training swing	Used for balance training	Size:205*168*182cm Horizontal roller to ground height:63cm Vertical roller to ground height:20cm Basket to ground height:80cm	160
YB-YLI-1		Children training swing	Used for balance training	Size:127*87*118cm	130
YB-GLC-6		Children exercise bike	Used for improving children’s leg exercise ability	Size: 55*35*70cm Suitable for children from 3-8 years old	120
YB-PBQ		Children treadmill	Treadmill	Size: 82*63*98cm	120
YB-MBQ		Children space walker	Space walker	Size: 68*41*85cm	120
YB-HCQ-3		Children Rowing machine	Rowing machine	Size: 100*37*65cm	120
YB-NYQ		Children AB Circle pro	AB Circle pro	Size: 52*38*100cm	110
YB-JZC		Children weightlifting device	Weightlifting device	Size: 90*81*77cm	120
YB-HPM		Children balance beam	Balance beam	Size: 205*45*95cm	135
TM-RZZ		Children Toy	Children Toy	Material:wood	30
KD-YTQ		Children training quoit	Used for hands and eyes’ coordination perception cognition training	Size: ¢ 15*26cm	21
YB-WWQ		Massage ball	Improve finger’s activity ability	Size: 9cm	4

YB-XXC		Children multi-function car	Used for hands and eyes' coordination perception cognition training	Size: 40*11*6cm Material: wood	7
YB-ZGT		Children tools table	Used to improve fingers' flexibility and coordination by imitating doing all kinds of work	Size:27*10*21cm	48
YB-CQX		Hammer set	Used to improve the hand coordination ability	Size: 27*12*14cm	22
YB-YDZ		Children balance and coordinate ability training device	Used for children balance and coordination training	Size:170*66*57-94cm Height:43.48，53cm Load capacity:30kg	330
YB-YIY-1		Children chair	Used for standing and sitting training and balance training	Size:65*41*100cm Height:69cm Spacing:10cm Diameter:2cm Ground to stool height:28cm Ground to armrest height:22.5cm	48
YB-RZW		Children cognitive toys	Used for cognition training	Size:30*30*29cm Weight:0.9kg	35
YB-RZJ		Children cognitive toys	Used for cognition training	Size:50*37*36cm Cylinder: ¢ 35X40mm, 5 pieces Cuboid:28X13X33mm, 5 pieces Cube:28X28X28mm, 5 pieces Triangular prism:length:34mm, height28mm, 5 pieces	95
YB-ZJD		Children assembled toys	Used to train children's joints,input muscle signals, develop children's coordination and confidence	Size:71.5*81*15cm	350
YB-CTC		Children balance car	Used to train children's joints,input muscle signals,develop children's coordination and confidence	Size:40*32cm	35
YB-CTS-2		Children trod stone	Used to train the balance and logical ability	Size:16*11*62cm Total 3 sets	25
YB-QQB		Children rolling board	Used for children's ability of balance and coordination	Size:55*23cm	30
YB-WNB		Children balance board	Used to training balance	¢ 54cm	30

YB-PBD		Children balance road	Used to crawl,walk or jump on	Size:147*30*3cm Total 4 pieces	200
YB-YHC		Children ring gliding car	Used for group games	¢ 48cm	30
HX-RS700A		Children treadmill	Help walking and standing training	Motor: 2.5HP/DC Speed: 0.1-10km/h Gradient : 0-15% Running size: 1200*410mm Handrail height: 570-880mm adjustable	1250

CHOOSE TOPMED, CHOOSE QUALITY, CHOOSE PROFESSION!!!
